NEWSPAPER [illegible]

FOR CORONER,

The Louisville *Courier-Journal* says "Fifty glassblowers, at a place called Harrison, have struck. Under Mr Harrison's prosperous Administration it would have been highly proper to suspect for a strike a place of some other name."

[illegible] silence regarding the result of the recent [illegible] in Indianapolis. As it is their funeral, perhaps silence is the proper thing. Democratic victories [illegible] has the one at Indianapolis, generally [illegible] Republican editors to feel very sad.

WAR MUTTERINGS continue to [illegible] in Europe. France has now [illegible] garrisons in Alsace-Lorraine. [illegible] great European war is imminent. [illegible] little doubt; and it is also very probable [illegible] will be rung in the first act before many months shall have passed.

THE appointment of Thomas [illegible] Secretary of State [illegible] adopting the policy of [illegible] has selected a man who believes in Tammany, who, possessing great political sagacity, will prove a greater enemy to the country. The appointment of Raum means, if it means anything, that President Harrison has endorsed Tammanyism and all the corrupt practices of the Whisky Ring. Yet, could anything better be expected of a party which has sold itself into office?

TARIFFS AND TAXES.

The Fallacy of the Argument That a High Tariff Lowers Wages.

(From the Harrisburg Patriot.)

The organs and organettes, together with a host of paid retainers whose chief stock in trade consists in concocting schemes to frighten the wage-earners, are again at their old game. The present high duty on iron and steel must be maintained else our manufacturers will be compelled to reduce wages, a thing the well paid workmen would not relish.

Judge O Cranborne at Waterloo! What stuff and nonsense! What a mixing up of high tariff taxes and high wages do these lords of the revenue present for the instruction of American workingmen! Why do these gentlemen guardians of our national industries [illegible] give some figures to sustain their oft-repeated and tiresome assertions, that a high tariff is necessary to enable the employer to pay more dollars per day in wages the year around than are paid in England or elsewhere? This they will fail to do because the figures and facts are against them, and the people are not the dupes of unscrupulous [illegible]

THE AUSTRALIAN SYSTEM OF VOTING.

How Files the Democratic Vote Added to Pennsylvania to Prevent Corruption.

The Australian system of voting, so [illegible] because first used in Australia, has been for several years in successful operation there, and, with now [illegible] variations, in England, Scotland, Ireland and Canada. It has also been adopted in Massachusetts. Its principal objects are to prevent bribery and intimidation, to place all candidates upon an equality before the law, and to undermine the dan[illegible] The [illegible] will be [illegible] reference to the accompanying drawing.

The voter, upon entering the polling place, turns to his right at the point marked "Entrance," where he receives from two election officers selected from opposing political parties, a single ballot or a single set of ballots according to the local custom of voting. On the back is indorsed a stamp or signature, sufficient and only sufficient to identify the ballot as official, and on the face are plainly printed the names of the candidates for each office, with a designation of their respective political parties, after this manner.

For Mayor.	Vote for one.
[illegible]	
[illegible]	
[illegible]	
[illegible]	

For Sheriff.	Vote for one.
[illegible]	
[illegible]

Having received his ballot the voter [illegible] of the booths back of the [illegible] where, [illegible] screened from observation, he prepares his ballot by placing in the [illegible] column a [illegible] mark [illegible] for each candidate for whom he desires to vote. [illegible] Statistics of the State [illegible] Boyd [illegible] and the dupes of designing [illegible] give some figures to sustain their oft-repeated and tiresome assertions, that a high tariff is necessary to enable the employer to pay more dollars per day in wages the year around than are paid in England or elsewhere? [illegible] and only elec[illegible] tion officers and [illegible] in voting are ever admitted within the railing.

Upon proof of inability from [illegible] infirmity or illiteracy, a voter may call into the booth officers appointed and sworn for the purpose, to aid him in preparing his ballot, and when a ballot is accidentally destroyed or defaced it may be exchanged for a clean one. The importance of the latter requirement may not at once be apparent; but to secure secrecy every ballot delivered to a voter must either be cast or returned. This explains the reason for indorsing ballots. But for the inducement a blank paper outwardly resembling a ballot might be cast by a voter, who would then be able surreptitiously to carry away an official ballot. This could be prepared for a bribed voter, the proof of its use being his production of a second official ballot. That could be similarly prepared and used and so on. Such a fraud, known as the "Tasmanian dodge," was successfully perpetrated in Australia in the early days of the system, but the opposition was prevented by requiring ballots to be official [illegible] in texture.

The printing and distribution of ballots is the most important part of election machinery. It left to private enterprise [illegible] would come to wield [illegible] power over the political party they [illegible] to serve, and in turn, through [illegible] almost military in [illegible] duty. Roy appreciated the warning words of [illegible] and assured him that he would [illegible] be alert and always distrustful [illegible] such characters as sought to do [illegible] personal harm.

It was proposed to Roy that they go together [illegible] the next Saturday night to one of the [illegible] various resorts in the city. The [illegible] was carried on under the guise of [illegible] respectable (?) saloon, when in reality it [illegible] a den of infamy of the lowest character.

Mrs. Haywood caused the two Hines, her son Willie and Hugh Lovelace to be summoned before the grand jury, but nothing could be proven against the same [illegible] than that minors had been allowed unlawful privileges in the saloon. For this they were brought into [illegible] court and fined a small amount, which they willingly paid, and were [illegible] to escape so easily.

THE RESULTS OF INTEMPERANCE.

By GEORGE W. WOODBEY.

CHAPTER IX.—(CONTINUED.)

Roy [illegible] learned at last that he would not soon forget and that he was destined to [illegible] and to practically serve the results of his [illegible] sphere of life.

Mr. Haywood trusted him implicitly, and much of the responsibility of the large business from that time [illegible] had been kept from [illegible] no one in the community better [illegible] for labor and his habits were [illegible] character and his ambition to [illegible] be honest, such that [illegible] his young charms and [illegible] fairly set to his brother, and [illegible] up a [illegible] business. A rude grave was hastily dug in [illegible] vegetable cellar of the cellar, into which [illegible] the body was placed, having first [illegible] wrapped in a soldier's blanket. The grave [illegible] was filled up with dirt and leveled over [illegible]

[illegible] there was no sign left of confusion in the cellar.

At the usual early hour on the following morning the saloon was opened and customers were coming and going as usual and no one could have guessed from the outward appearance of George and Harry Hines that a murder had been committed there during the night.

Mrs. Haywood caused the two Hines', her son Willie and Hugh Lovelace to be summoned before the grand jury, but nothing could be proven against the accused men and these minutes had been allowed unlawful privileges in the saloon. For this they were on night into [illegible] tried and fined a small amount which they willingly paid, and were [illegible] to escape so easily.

From that time forward their business began to decrease, and the real character of the men and their place of business became more apparent. Two would be regular customers withdrew his patronage and returned to his old accustomed ways of drinking from his own jug.

In very short time their only customers were of the lowest class of drunkards who pay but little and drink a great deal. At the end of two years they [illegible] and [illegible] a great number of the young men whom they had [illegible] respectable society when they first opened the town.

[illegible] took account against the time for final [illegible] which they knew [illegible] to escape the vengeance of [illegible] people. They left the [illegible] night and when [illegible] their way to [illegible] an excitement took [illegible] [illegible] was that had been silent [illegible] [illegible] Lovelace [illegible] and when Willie [illegible] it was suggested [illegible] of the building [illegible] with the hope [illegible] mystery, as it [illegible] that Colonel [illegible] by the Hines [illegible] saloon [illegible] [illegible] the [illegible]

[illegible] light on [illegible] faded [illegible] the

[illegible] feet of her, and eyeing her very closely, she said:

"Miss, I spect you be tired, you look weak. Are you a stranger here?"

"Yes," answered Hettie. "I am here looking for my brothers, George and Harry Hines and I have walked miles. I am almost tired to death."

"And where must ye live, miss?"

"My home is in the [illegible] and in Southern Kentucky. My father and mother are somewhere in this country, and I hope finding them [illegible]

"Poor darlint, you are too young and handsome to be out in this country any longer, come home with me and get a cup of tea, and I will straighten you."

[illegible] took her [illegible] and [illegible] her.

They walked a long way, when they finally turned into an alley and the old woman opened the entrance to a [illegible] house. At the first sight of the [illegible] started, she [illegible] muttering to herself and [illegible] Hettie. She said:

"Miss [illegible] is my home. It is a dreadful poor one, but better than to be in the streets this time."

Hettie [illegible] to the first [illegible] ill-fated surroundings. She [illegible] to [illegible] everybody and little did she know of the evil lurking in the old woman's wicked heart when she so easily fell a prey to her scheme. She was the first [illegible] who had spoken a kind word to her in that strange city, and with her [illegible] trustful nature she was like a harmless dove under the power of the serpent's charm.

Passing through the hall, they ascended a dreary old stairway and through a [illegible] hall, and then up another [illegible] Here she took from her pocket a bunch of keys, and, selecting one, unlocked [illegible] and ushered Hettie into a dingy room. A careful survey of the surroundings convinced her that she had been decoyed to a place, to say the least of it, not particularly inviting. The ceiling was low and there was but one very small window, through which the sun shone in feeble rays. Upon the walls there were no paintings or other [illegible] the floor was partially covered with a faded and ragged carpet; a bed stood in one corner, a few [illegible] and other articles of little consequence, such as old dilapidated furniture, completed the make-up of this home of apparent poverty.

But in reality this was the hiding place of a band of thieves. They were not murderers, but a quiet thieving gang, whose business it was to decoy innocent, unsuspecting people into this out-of-the-way place under various pretenses, and when in some way manage to rob them of whatever money or valuables they might have. There were a number of them in the guise of apple peddlers, rag-pickers and professional street beggars. They were principally wealthy, miserly people, and had carried on this kind of business for a number of years without successful exposure.
